

GLOBAL

What are we doing?

Founded in August 2019, in the city of Berlin, Germany: Musik als Weg e.V. - Socialorchester & Chor. We work together with our members and volunteers to help people in need in the Berlin community and around the world. Our work focuses on fundraising and the provision of services such as: employment, sponsorship, mentoring, advice, recruitment and training of "young musical talents". We strive to inspire society and improve the lives of human beings through the discovery and direction of a career, strengthening their own musical and artistic abilities in general. Contact us to find out how you can get involved with our professional orchestra (adults), orchestra/school (children) and the annual scholarship for young musical talents from Latin America and the rest of the world.

MISSION:

Transform society by sowing the seed of hope through music and the arts in each boy, girl and young person from conscious and responsible participation. Our Musik als Weg e.V Cultural Space and our social orchestras and choirs are fields for cultivating the values of the human spirit where resilience, trust, social justice, kindness, beauty and compassion grow.

"When you plant a seed of Love, it is you who blooms."
Rumi, Sufi Poet of Islam

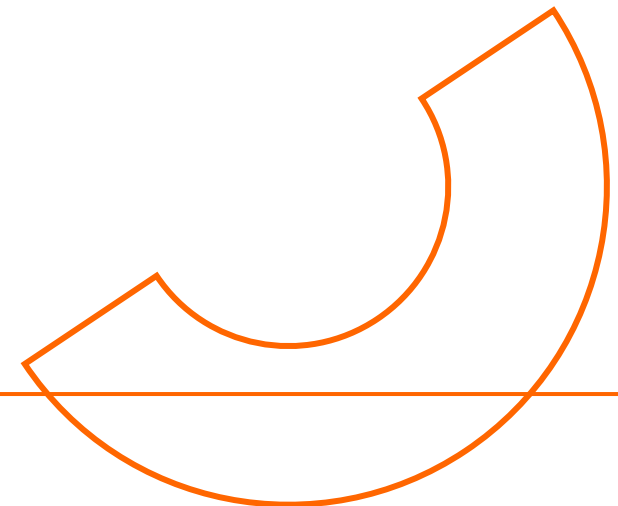

Work Area: Social Consulting and Community Development.

In "CONEXION MUSIK ALS WEG e.V" (cultural space) we have two areas of work: **a)** Social Consulting, which is dedicated to carrying out research, diagnoses, systematization of experiences and evaluations of public policy;

and **b)** Community Development, where we implement socio-educational, labor and artistic projects in the territory. The projects are in charge of interdisciplinary teams made up of sociologists, educators, re-enactors, anthropologists, economists, etc., according to the characteristics of each proposal. Eg: "ASSAMBLA MUSIK ALS WEG e.V" Social Orchestras and Choirs for social inclusion and socio-cultural integration, "MUSICOTECA MUSIK ALS WEG e.V"

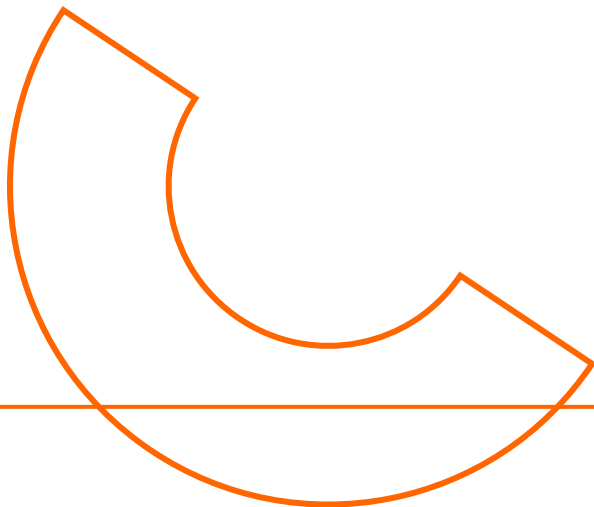

VISION:

We dream of a country where every city, town and neighborhood has an orchestra in which children and youth can shine and dream to be the best version of themselves.

What are the premises from which they start in artistic and cultural projects?

Social equality and integrality are sought. We understand by social equality the performance of actions that enable familiarization with stimuli, objects and experiences that are frequent and daily among other social sectors: reading, shows, physical and artistic training, photography, etc. For us, learning implies knowledge that can be applied in the service of social transformation. This transformation means, in the case of vulnerable populations, social inclusion, that is, incorporation into different activities and institutions that expand the capacity for participation and belonging. It includes the knowledge and/or claim for their rights, gender equality and the exercise of full citizenship.

If you seek to influence some aspect of quality of life, whatever the specific theme of a project (health, education, training for work, creation, sports, etc.), other dimensions must be considered (fields of learning, values, emotional growth etc.

A dream as big as an orchestra

Our choirs and orchestras are seedbeds of a better world. Through music we sow values, generating dynamics where hope, illusion, peaceful coexistence and personal development grow.

Music that changes lives

We change the lives of people, especially the most vulnerable, by putting an instrument in their hands.

NETWORKING

Musik als Weg.eV is the sum of many wills that share the same dream: to build a better world. To achieve this, we collaborate closely with educational centers, companies, donors, public administration and cultural and social entities.

We dream of a world where all people have equal opportunities and we know that we can only achieve it if we work in a network and in collaboration. Working side by side we will be able to go further, join us and we will achieve a definitive transformation.
